Peer-reviewed Publications

2012

Roman MR, Pierson JJ, Kimmel DG, Boicourt WC, Zhang X (2012) Impacts of Hypoxia on Zooplankton Spatial Distributions in the Northern Gulf of Mexico. Estuaries Coasts 35(5):1261–1269

2008

Elmore AJ, Shi X, Gorence NJ, Li X, Jin H, Wang F, Zhang X (2008) Spatial distribution of agricultural residue from rice for potential biofuel production in China. Biomass Bioenerg. 32(1):22–27

2006

Hood RR, Zhang X, Glibert PA, Roman MR, Stoecker DK, AF Hood RR, Zhang X, Glibert PM, Roman MR, Stoecker DK (2006) Modeling the influence of nutrients, turbulence and grazing on Pfiesteria population dynamics. Harmful Algae 5(4):459–479

Zhang X, Roman M, Kimmel D, McGilliard C, Boicourt W (2006) Spatial variability in plankton biomass and hydrographic variables along an axial transect in Chesapeake Bay. J. Geophys. Res.-Oceans 111(C5 AR C05S11 DI ARTN C05S11)

2005

Roman M, Zhang X, McGilliard C, Boicourt W (2005) Seasonal and annual variability in the spatial patterns of plankton biomass in Chesapeake Bay. Limnology and Oceanography 50(2):480–492

2003

Anderson JT, Hood RR, Zhang X (2003) Quantification of Pfiesteria piscicida growth and encystment parameters using a numerical model. Marine Ecology-Progress Series 246:105–113

2002

Roman MR, Adolf HA, Landry MR, Madin LP, Steinberg DK, Zhang X (2002) Estimates of oceanic mesozooplankton production: a comparison using the Bermuda and Hawaii time-series data. Deep-Sea Research Part Ii-Topical Studies in Oceanography 49(1-3):175–192

Roman MR, Dam HG, Le Borgne R, Zhang X (2002) Latitudinal comparisons of equatorial Pacific zooplankton. Deep-Sea Research Part Ii-Topical Studies in Oceanography 49(13-14):2695–2711

2000

Zhang X, Roman M, Sanford A, Adolf H, Lascara C, Burgett R (2000) Can an optical plankton counter produce reasonable estimates of zooplankton abundance and biovolume in water with high detritus? Journal of Plankton Research 22(1):137–150

1995

Zhang X, Dam HG, White JR, Roman MR (1995) Latitudinal Variations in Mesozooplankton Grazing and Metabolism in the Central Tropical Pacific During the Us Jgofs Eqpac Study. Deep-Sea Research Part Ii-Topical Studies in Oceanography 42(2-3):695–714
